Northbound US 41 under Scheuring Road to close overnight

Replacement girders to be set Tuesday and Wednesday night

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region office in Green Bay is announcing a full overnight closure for northbound US 41 under the Scheuring Road overpass and the southbound US 41 off-ramp to Scheuring Road from 8 p.m. to 5 a.m. Tuesday, August 13 and Wednesday, August 14.

Detour:

- Northbound US 41 traffic will be diverted up and down the ramps of the Scheuring Road interchange.
- Southbound US 41 traffic wanting to exit to Scheuring Road can exit at Main Street and take the frontage road to Scheuring.

On September 4, 2012, a truck that exceeded Scheuring Road bridge clearance limits hit the underside of the bridge, damaging four girders that support the bridge surface and need to be repaired. WisDOT is replacing three of the girders and applying a protective surface coat to the fourth, along with repairs to the bridge deck and parapets.

The repair is expected to be complete by mid-October.

All lane restrictions are weather dependent and subject to change.
